

Aufgabenkarten Addition ZR 20 mit Rückseite

Dieses Material eignet sich für die folgenden Übungen der FÖDIMA-Kartei:

- Zwanzigerfeld – Addition, Nr. 21
- Einfache Aufgaben – Addition, Nr. 23
- Einfache Aufgaben rechnen – Addition, Nr. 24
- Ableitungsstrategien nutzen – Addition, Nr. 25

Anhand der Lupen auf der Rückseite der Aufgabenkarten können die Bezüge zu den Kernaufgaben der Multiplikation hergestellt werden.

Die leeren Karten können zum Erstellen von eigenen Aufgabenkarten genutzt werden.

Die Aufgabenkarten sind nach den Kernaufgabentypen sortiert und entsprechend in Abschnitte eingeteilt.

Druckhinweis: Die Aufgabenkarten mit Rückseite werden doppelseitig über die lange Seite gedruckt.
