

# Schnelles Addieren bis 1000

Das kann ich schon!

## Adunări rapide până la 1000

Știu deja cum se face!

Name/ Nume: \_\_\_\_\_ Datum/ Data: \_\_\_\_\_

<p>① Calculează. Rechne.</p> <p><math>300 + 700 = \underline{\hspace{2cm}}</math>                      <math>200 + \underline{\hspace{2cm}} = 1000</math>  <math>500 + 500 = \underline{\hspace{2cm}}</math>                      <math>600 + \underline{\hspace{2cm}} = 1000</math>  <math>100 + 900 = \underline{\hspace{2cm}}</math>                      <math>\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 1000</math></p>													
<p>② Calculează. Rechne.</p> <p><math>450 + \underline{\hspace{2cm}} = 500</math>                      <math>730 + \underline{\hspace{2cm}} = 1000</math>  <math>960 + \underline{\hspace{2cm}} = 1000</math>                      <math>280 + \underline{\hspace{2cm}} = 1000</math>  <math>610 + \underline{\hspace{2cm}} = 700</math>                      <math>570 + \underline{\hspace{2cm}} = 1000</math></p>													
<p>③ Calculează. Rechne.</p> <p><math>300 + 70 = \underline{\hspace{2cm}}</math>                      <math>280 + 200 = \underline{\hspace{2cm}}</math>  <math>630 + 5 = \underline{\hspace{2cm}}</math>                      <math>570 + 50 = \underline{\hspace{2cm}}</math>  <math>200 + 300 = \underline{\hspace{2cm}}</math>                      <math>700 + 3 = \underline{\hspace{2cm}}</math>  <math>450 + 6 = \underline{\hspace{2cm}}</math>                      <math>960 + 40 = \underline{\hspace{2cm}}</math></p>													
<p>④ Calculează. Rechne.</p> <p>din 10 în 10 in 10er Schritten      <math>760, 770, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}</math></p> <p>din 50 în 50 in 50er Schritten      <math>250, 300, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}</math></p> <p>din 20 în 20 in 20er Schritten      <math>420, 440, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}, \underline{\hspace{1cm}}</math></p>													
<p>⑤ Calculează dublul. Verdopple.</p> <table border="1" style="width: 100%; border-collapse: collapse; margin-top: 10px;"> <tbody> <tr> <td style="padding: 5px;">Număr Zahl</td> <td style="padding: 5px;">500</td> <td style="padding: 5px;">250</td> <td style="padding: 5px;">340</td> <td style="padding: 5px;">160</td> <td style="padding: 5px;">480</td> </tr> <tr> <td style="padding: 5px;">Dublul Das Doppelte</td> <td style="padding: 5px;">1000</td> <td style="padding: 5px;"></td> <td style="padding: 5px;"></td> <td style="padding: 5px;"></td> <td style="padding: 5px;"></td> </tr> </tbody> </table>	Număr Zahl	500	250	340	160	480	Dublul Das Doppelte	1000					
Număr Zahl	500	250	340	160	480								
Dublul Das Doppelte	1000
